## BASIK 3 RCU

- I Can be used in the same zone as a KNEKT RCU
- I Cascadable with a KNEKT RCU, a BASIK 3 IR RCU and multiple BASIK 3 RCUs (up to 8) in the same zone
- I Fits standard UK, European, US and Linn back boxes
- I Splash-proof unit

The BASIK 3 and BASIK 3 IR RCU offer simple functionality and are perfect control products for adjoining rooms and lower traffic areas in a KNEKT multi-zone audio system.

Using a LINE RECEIVER 2 or ROOMAMP 2 in the local zone, the BASIK 3 IR or BASIK 3 RCU can be connected to control volume and power independently in the connected sub-zone, for example, in an en-suite bathroom off the main bedroom.

Both the BASIK 3 and BASIK 3 IR RCU are backwards compatible and can be used with most existing KNEKT systems.

In addition, these RCUs offer a 'plug and play' solution for remote control of CLASSIK Music or Movie products and can be used with CLASSIK products in a CONNECT configuration to provide a simple, economical multi-room audio solution.
